 - Athletes' whereabouts – how do you get it? What issues do you face when getting this information?
 - 1 Testing Orders (TO) – what information do you get from NADOs? Do you get the names of athletes to be tested in advance and prepare the TO when it's time? Or do you send a semi-filled TO to the MCR for execution, and request names at that time?
 - What else can be done to facilitate the execution of TDP?
